Reci Cambridge Ort. 28 25 United States and Morican Soundary Office Machington October 25. 1856. De George Engelmann. done in reference to the "bacto", Major Emory desires to know your views concerning the lithographs executed by ME Prestele - the latter person is engaged in doing all of the sames kind of work for the foverment and in a very Economical way). If your opinion is not decidedly adverse to his going on with the rest of the drawings, I will to send them to him - if however you think that he Cannot execute them in the explr you desire, why then they will beginen into M. Dougal's hands to be engraned on short - the average cost of plates will be fifty dollars. Please inform me what you think is hest to be done. a decided opinion for or against the lithographs by Apackage has been received at this office for you - fearing that it might pass you on your was to Washington it has been detained here - please let me know if you desire
